Patriot Technologies Able to Provide Security Expertise to DIA via SAIC SITE Contract Award

Named Team Member Readied to Support the DoD's Defense Intelligence Agency IT Initiatives

Frederick, MD June 14, 2010 — Patriot Technologies, the go-to source for comprehensive IT security solutions, today announced they are a team member with Science Applications International Corporation (SAIC) to provide IT technology and security expertise to the Defense Intelligence Agency via a recently awarded indefinite-delivery/indefinite-quantity (IDIQ) contract. The Solutions for the Information Technology Enterprise (SITE) contract has a total potential value of \$6.6 billion over 5 years.

“Patriot Technologies looks forward to assisting SAIC to accomplish technology initiatives of the DIA,” said Bruce Tucker, President of Patriot Technologies. “I’m confident our security solutions, proven track record within DoD and professional services capabilities will be a value-added asset.”

According to the DIA, The Solutions for the Information Technology Enterprise (SITE) contract is designed to enable streamlined execution, simplify purchase requests, standardize acquisition documentation, improve enterprise program management for customers, provide better reporting capability, improve contracting performance and data integrity and make the Agency’s overall IT acquisition processes more efficient. Although managed by DIA, the contract will also incorporate IT requirements from customers across the Defense Intelligence Enterprise and the Intelligence Community.
